

Nonstop SecOps

Let's reimagine the meaning of nonstop.

Ontinue, the MDR division of Open Systems, is on a mission to be the most trusted, always-on security partner and MXDR services provider. Grounded in an intelligent, cloud-delivered SecOps platform, Ontinue offers superior protection that goes well beyond basic detection and response services.

Ontinue is the only MXDR provider that leverages AI-driven automation, human expertise, and the Microsoft security platform to continuously assess and protect your environment and advance your security posture for digital transformation.

We have a team of data scientists, Cyber Defenders and Cyber Advisors who are 24/7, always-on experts helping to continuously strengthen your cybersecurity posture. Continuous protection. Always-on prevention Services. Nonstop SecOps. That's Ontinue.

Beyond MDR. Always-On. Continuous Protection

Ontinue ION is more than MXDR, it's nonstop SecOps. Operationalizing security requires new, innovative capabilities that go beyond conventional MXDR features.

- **Automation:** Our solution has AI-driven automation that offers faster detection and response. We continuously measure every aspect of your day-to-day operations to identify new opportunities for automation and optimization.
- **Collaboration:** We make collaboration easy in Microsoft Teams. Get the information you need 24 hours a day, 7 days a week.
- **Localization:** We have a deep understanding of your unique environment, and we tailor protection to what you need. Our system is constantly learning, not just about threats but about the optimal way to defend against threats to continuously improve your security program.
- **100% Invested in Microsoft:** We are hyper-focused on Microsoft. Not only that, but we are Microsoft security customers' preferred MXDR provider. Why? We build capabilities that complement the Microsoft security stack. We help you maximize your Microsoft investment.
