Ontinue + ▦ Microsoft Security

Microsoft Sentinel Essentials

Prevent and detect threats across your enterprise before they cause harm – engage with the Ontinue Professional Services team for a Microsoft Sentinel Essentials workshop.

Microsoft Sentinel delivers intelligent security analytics and threat intelligence across the enterprise, providing a single solution for alert detection, threat visibility, proactive hunting, and threat response.

Get an overview of Microsoft Sentinel along with insights on active threats to your Microsoft 365 cloud and on-premises environments with this in-depth workshop. These deliverables can be used as a pre-enabler for the Ontinue ION managed extended detection and response service.

Simplify your security operations

Understand how Microsoft Sentinel can help you simplify the security operations of your organization, so you can scale as you grow. Start with a pilot or proof of concept (POC) facilitated by our Professional Services team.

Overview, Design and Preparation

- Understand the features and benefits of Microsoft Sentinel
- Better understand, prioritize, and mitigate potential threat vectors
- Create a defined deployment roadmap based on your environment and goals
- Develop joint plans and next steps

Deployment

- Configure and enable Microsoft Sentinel, with applicable connectors
- Discover threats and demonstrate how to automate responses
- Understand how to mitigate and protect against threats by showing how Microsoft 365 and Azure security products can help

Knowledge Transfer & Next Steps

- Project summary and Q&A
- Knowledge transfer to your security team
- Next step discussion on MXDR

Ontinue is a premier Microsoft security partner and has access to Microsoft investment funding (if applicable) which can help co-fund this specific package of work. Please speak to an Ontinue Sales representative for more information and to see if your organization is eligible.

Who should attend

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Data Protection Officer
- Data Governance Officer
- IT Security, IT Compliance, and/or IT Operations
- Data Governance

Requirements

If your organization has not already purchased Microsoft 365 E5 Security licenses, we can assist you with acquiring trial licenses.
